

Aircraft Treatment

Aircraft Treatment is FAA accepted for piston-engine aircraft up to 736 kW (1000 hp).
950 mL \$199

“...engine friction, at takeoff and cruise RPM’s, is lowered 25 - 30 %” 5 - 10x greater engine lifespan

Testing: FAA

Tests: xcelplus.com.au/tests

- Mileage improved 36 % (Le Tourneau Uni)
- CO Emissions decreased 38 -76 %
- HC decreased 23 - 33 % (Bilsport)
- Soot decreased by 100 % (DR650)
- NOx decreased by 20 % (TUV)

FAQ’s: xcelplus.com.au/faq

- CO₂ reduced ~4.3 Ton (Cost-Benefit Analysis)
- ~\$840/y in savings (CBA)

Xcelplus Engine Treatment

Single application
Super lubrication

Cleaning up the planet one car
at a time

Engine Treatment

Engine Treatment concentrate provides super slippery lubrication with a single application every 160,000 km. Reduced wear, heat, noise and improved efficiency occur due to lower friction. One bottle treats a 7 L engine capacity (not oil capacity). 300 mL \$99

“82 % reduction in wear”

(equivalent to ~5x increase in engine lifespan)

Test: 2015 Toyota Yaris

Gear Treatment

Gear Treatment concentrate provides super slippery lubrication with a single application every 160,000 km. For gearboxes, differentials, transfer cases and hydraulics. Reduced wear, heat, noise and improved efficiency occur due to lower friction. One bottle treats 3 L of oil (10 % dose rate). 300 mL \$99

“1.5 s faster lap times” and gearbox whine disappeared entirely.

Testimonial: Honda race car

2-Stroke & Combustion Chamber Treatment

One bottle treats a 2-stroke engine up to 750 cc or the combustion chamber of petrol diesel and LPG engines up to ~3.5 L. Add to fuel, apply via air intake, or add to oil injection every 160,000 km. 15 mL \$39

“...within 30 minutes the power of the scooter increased significantly”

“...had to drop the idle speed back three times”

“...saving fuel is the best part”

Testimonial: Kymco Scooter

“21 % improvement in fuel economy” BMW X5

Light Lubricant

Light Lubricant provides long-lasting lubrication, prevents wear, rust, and corrosion. It frees up frozen parts, reduces friction, protects against salt spray and stops squeaks. It has exceptional penetration and is propellant-free (lasts longer). 300 mL \$39

Lubricant coefficient of friction is 44 % (0.0223) lower than Teflon (0.04) and no rust after 100 hours in salt water.

Testing: Southwest Research Institute of Texas

Sludge Out

Sludge Out is a concentrated cleaner for dirty engines: Removes and suspends sludge, varnish and deposits. 118 mL \$39

Ring Free

Ring Free is a concentrated oil additive that improves the performance of crankcase oils: reduces friction, heat, stuck rings and oil consumption. 118 mL \$39

“The change was immediately noticeable... the engine became quieter and smoother.”

Testimonial: BMW X5 turbo diesel

Grease

Grease (all-purpose) for extreme:

- Loads
- Environments
- Temperatures
- Durability
- Lubrication

375 g \$39

“62 % increase in the rolling distance”

Testing : Bilspport (Sweden)
