89% improvement in fuel economy

Dear Sir,

I am happy to recommend the use of Xcelplus engine performance products.

I own a steel grey 2015 Kia Cerato 1.8 L 4 cylinder auto (6 gear) sedan with 4 doors and very low mileage (~24,000 km 1/2/22). It has been fully dealership maintained with oil changes every six months. It was treated with both the XcelPlus Engine Treatment (via the oil) and the Combustion Chamber Treatment (via the fuel) at ~20,000 km.

I was sceptical about XcelPlus before using it but after treatment, overall gasoline usage (91 octane), improved from 11.9 L/100 km (8.4 km/L) to 6.3 L/100 km (15.9 km/L) (+89 %) around town. The car gets even better mileage on the highway ~5.7 L/100 km (~17.5 km/L). This is a saving of over \$70 each time the 50 L tank is filled. It means the ~400 km range is now ~800 km. It has stayed at this level for one year.

Prior to Xcelplus the car was a bit of a disappointment because the fuel economy was nothing like that claimed by Kia.

The engine is also noticeably quieter, there is a lot less vibration and it is more responsive after treating it with XcelPlus.

Yours sincerely
